#### Description

BLH salt chlorine generator transform salt to chlorine effectively and softly. The flow sensor can make the flow easy to track. Compatible With Hayward® Aquarite® plumbing  
---- No pipe line work needed

ATTN: We are not affiliated with Hayward® Pool Products. The use of above trademarks herein is for informational purposes only.

The BLH40 works with your current pump and filtration system to provide you with a safe supply of chlorine to enjoy in your pool daily. The best part about using a salt chlorine generator is that there are no harsh chemicals that can be harmful to the skin and eyes. The BLH40 is easy to install and will save you hundreds of dollars in pool maintenance.

## PRODUCT DETAIL FAQ

Blue Works BLH40-AY Salt Chlorine Generator for Inground Swimming Pools. Instead of adding chlorine directly to your pool, you're adding salt.

Blue Works BLH40-AY salt chlorine generator uses electrolysis to separate the salt in the pool water into two primary components, one of which is chlorine. But even after the chlorine is made, the salt stays in the water and gets recycled and reused by the salt water chlorinator.

**Upgraded System& Simple Operation:**High/Low salt and Temperature indicators to help protect your equipment.

**Long-lasting and Reliable Cell Plates:**High quality cell plates are provided by American company. More durable and stable.

**Friendly Installation:**Use compatible fittings for quick installation without replacing plumbing.

**No need to add chlorine weekly:**With a salt pool chlorine generator, you never have to worry about buying, handling, and adding chlorine again. BLH40-AY salt chlorine generator can generate enough chlorine using a small amount of salt. You'll never have to add weekly doses of chlorine to your pool! This saves your money on chemicals in the long run

**Q: I have hayward glx-cell-5 turbocell salt chlorination cell for above-ground pools. is the blue works salt cell compatible?**

A: You must first know which chlorination system you have and know if it is compatible with either the T-Cell-3 or T-Cell-15 salt cell. If you do not know this, you need to have a someone who is a professional or very familiar with pool equipment like a local pool maintenance company come out to go over this with you. This particular Blue Works salt cell comes in either the replacement for a T-Cell-3 (for 15k gallon pool) or T-Cell-15 (for 40k gal pool). Your T-Cell-5 I believe is for a 20k gal pool. So I don't think you should go down to a T-Cell-3 salt cell since you have a T-Cell-5 salt cell. Also, if your chlorinator does not allow you to set the system for either the T-Cell-3 or T-Cell-15 turbo cell, then it will not be compatible. When changing to a different Cell "number", you MUST change the settings on your chlorination system to that turbo cell number. If you buy either the Blue Works T-Cell-3 or T-Cell-15, you are NOT replacing it with the same salt cell since you current have, the T-Cell-5. The seller here states the compatibility is: "Compatible with Hayward Goldline AquaRite, SwimPure, AquaRite XL, NatureSoft, SmartPure, Mineral Springs and Blue Essence Systems. BLW1T15H salt cell can't be compatible with Hayward automation system, such as OmniLogic, OmniHub, ProLogic, AquaLogic and AquaPlus, etc." Do you have either of these systems? I have the Goldline Aquarite system and it works just fine on my system.

On 9/7/2023 our Blueworks Salt Cell was reading "Low Salt and high temp of 134F and check cell. We put 2#s of salt in and let pump run overnight. Next day 9/8 still showed low salt, high tem and check cell so went to pool store bought 80#s of salt and salt cell cleaner. Removed cell and cleaned according to directions. Re- installed cell and added the 80#s of salt. Waited 20 hours and still showing same condition. Took pool water to be tested and found salt is good. Have been on the phone with Blueworks Mon,Tuesday, Wednesday and Thursday and they aren't letting us speak to someone whose knowledgeable. Same female that's reading for a script and links they send that don't work. This is not a cheap system and it's only 1 year and 3 months old. We should not have to jump through hoops to speak with someone else?

**Thomas M** ☆☆☆☆☆ 05/01/2023

I purchased a salt chlorinator salt cell from them in April 2023 after 3 weeks of email exchanges sending them requested photos and proof of purchase they refuse to honor their 2 year warranty. The purchase was less than a month old at the time of failure. As I have seen many negative reviews on warranty and refund issues this company should be investigated by the \*\*\*\*\* for fraud and forced to compensate all customers that refused to help.

Marc N

08/13/2022

I bought the Blue Works System (Chlorinator, PCB, and Flow Switch) directly from Blue Works (Invoice #\*\*\*\*-21) one and a half years ago. The salesman (\*\*\*\*) was very helpful and accommodating. However, the Chlorinator stopped working and I immediately contacted BlueWorks Support (case #\*\*\*\*). After numerous phone calls back and forth and sending 21 emails with requested information, Blue Works Support continued to insist they did not sell me their product(s) and they refused to honor the breach of warranty. Between 8/5/22 and 8/11/22, I sent several copies of the invoice and proof of purchase (using PayPal) to BlueWorks Support. In addition, I sent numerous photos and a video of the display panel's codes. In the end, I had no recourse but to buy a replacement Chlorinator from another company. I am very disappointed and frustrated with the Blue Works Corporation and my recommendation is DO NOT BUY ANYTHING FROM THIS COMPANY!

## Reviews

**Elma** 2021.01.25 05:58:40

The factory has advanced equipment, experienced staffs and good management level, so product quality had assurance, this cooperation is very relaxed and happy!

**Jerry** 2020.09.03 03:34:33

Good quality and fast delivery, it's very nice. Some products have a little supplier replaced timely, overall, we are satisfied.

**Sandy** 2020.08.17 16:05:16

The supplier cooperation attitude is very good, encountered various problems, always willing to cooperate with us, to us as the real God.

**Sara** 2020.07.19 21:31:47

The company comply with the contract strict, a very reputable manufacturer cooperation.

**Maxine** 2020.06.17 05:22:07

We are long-term partners, there is no disappointment every time, we hope to maintain this friendship later!

**Daisy** 2020.02.28 20:41:33

It can be said that this is a best producer we encountered in China in this work with so excellent manufacturer.
